

**LEAD FREE POT SIEVES & HAND SIEVES :****➤ Lead Free Detachable Pot Sieves For Liquid Filtration :****Description:**

The Detachable Pot Sieve is our highly popular innovation. A single pot can be used with multiple mesh sizes thereby saving on cost & space.

Every sieve is pure Silicone moulded, certified & clamped in a leak proof fixture.

In a Pot sieve, usually the sieves need to be replaced after certain usage. Because the old design had the sieve fixed to the pot, the whole assembly had to be discarded.

The replacement cost of our detachable sieve is a fraction of the replacement cost of the complete pot assembly.

**Salient Features:**

- Crevice Free GMP Design
- Calibrated & Certified as per International Standards.
- Also available in S.S 316 L Quality
- Perforation sizes ranging from 0.5mm dia to 25mm dia.
- Wire mesh sizes available from 4# to 600#.
- Detachable Silicon Moulded Sieve Arrangement.

**➤ Lead Free Detachable Hand Sieving Frames :****Description:**

The Detachable Hand Sieve is highly popular innovation. A single frame can be used with multiple mesh sizes thereby saving on cost & space.

In a Hand sieving frame, usually the sieves need to be replaced after certain usage. Because the old design had the sieve fixed to the frame, the whole assembly had to be discarded.

The replacement cost of our detachable sieve is a fraction of the replacement cost of the complete assembly.

**Salient Features:**

- Crevice Free GMP Design
- Calibrated & Certified as per International Standards.
- Also available in S.S 316 L Quality
- Perforation sizes ranging from 0.5mm dia to 25mm dia.
- Wire mesh sizes available from 4# to 600#.
- Available in all size.
